1,220,023 1,173,196"[general fund FY 2014 and FY 2015]"

- END -

Explanation - This amendment moves \$1.2 million of general fund each year of the biennium for facility management projects associated with the common areas of state buildings in the capitol complex from the base budget to a one-time-only appropriation for the 2015 biennium. It does not change the overall funding for the program. The common areas include office spaces for the House of the Representatives and Senate, Governor's Mansion, public display areas in the Historical Society Museum, and some office space in the museum building. Funding is used for maintenance projects related to the various spaces. The costs and complexity of the maintenance projects can vary from biennium to biennium. The one-time-only designation requires the legislature to review the projects proposed in future biennia to determine the funding level for the common areas maintenance projects.
